Comments:

The Competition went very well. The organization did an incredibly good job.

Everything went smoothly, well organized with a fixed schedule that was very easy for the competitors to follow.

Tunnel has worked without any problem. Very good condition. Organisation made best camera position for VFS I've ever seen, with optimal light ratio. Scoring system also worked well with excellent technical support. They have also organized live streaming which was very popular around the world. This included a person with judging skills who set preliminary scores during flight performance. There had been a lot of positive comments, both from competitors and audiences around the world.

Competitor meeting was set up after the end of the competition and after the protest time had expired. It was a constructive meeting with a focus on how we can get more people to compete.

As per SC5 3.1.3.5 requirement, I've already sent 3 record claims to the FAI office
