## Young Artist Contest

---

2025 FAI Education Plenary Meeting

## 2025 THEME: WOMEN WITH WINGS

Since the earliest days of aviation, young people have been inspired by people whose adventurous spirits have soared into the skies above us.

Stories of remarkable bravery and world firsts in the air and in space have long captured the imaginations of children across the planet. The glory of record-breaking long-distance flights, magnificent skydiving formations, perfect precision landings and gold medal wins will long continue to enthuse youngsters to take to the skies themselves and experience the challenges and the camaraderie of air sports.

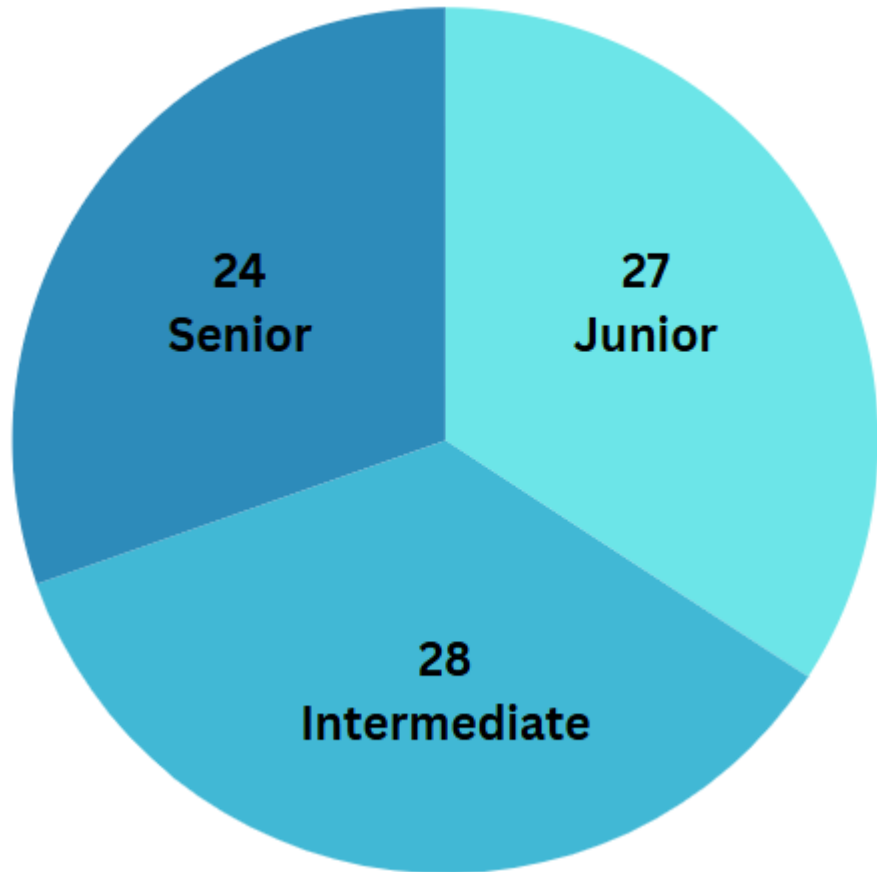

Particularly inspiring for young girls are the tales of women who have defied society's expectations to take to the air and prove that the sky is a place for everyone.

For the 2025 FAI Young Artists Contest, youngsters focused their creativity on these incredible Women with Wings, who unite in a world where the skies are a canvas of peace and friendship.

Using pencils, crayons, pens or paint, artists can be inspired by Women with Wings to show how women from all walks of life find liberty and inspire others through their love for flight.

## 2026 THEME: FLY TO SAVE LIVES

For over a hundred years, people have dreamed of flying in the sky. What once seemed like magic is now a part of our everyday lives. Planes and helicopters help us travel far and fast, bringing people together from all over the world. They also help during emergencies, like delivering food, medicine, fighting wildfires and finding people who need help.

Flying isn't just about helping others—it can also help you. When people do air sports like paragliding, ballooning, or flying drones, it helps them feel happy, confident, and strong. Being up in the sky makes people feel free and connected to nature, which is great for their wellbeing.

This year's FAI Young Artists Contest theme is "Fly to Save Lives." We want you to imagine how the 11 different air sports—can help save lives.

With your crayons, paint, or pencils, show us your ideas. How can flight make the world a safer and better place? The sky is not the limit—it's where hope begins!
