Airspace

The competition airspace is now published.

An **appendix to Local Procedures** (edition 17/06/2013) will accompany the publication **to clarify the airspace structure**: permanently closed airspaces, free airspaces and airspaces whose status may change.

A **map** (ICAO 1:500,000 chart) **that fits the competition area will be provided by organisers to each competitors.**

Same map will be available for purchase at the competition office.

Scoring

In order to prepare the scoring system, whenever you have the opportunity (from now) please send to scoring@berryglide.net an IGC file from each of the loggers used during the competition.

Do not rename the file, keep original IGC file name: the three-character alphanumeric identifier for an individual IGC Flight Recorder must appear as a three-character group in the name of the file, as in the following example:

IGC short file name format: 36SYXXX1.IGC

IGC long file name: 2013-06-28-YYY-XXX-01.IGC

where XXX is the IGC serial number/letters of the individual recorder
and Y or YYY is the manufacturer's letter IGC identifier
