

2008 F3D Subcommittee Report

Bob Brown, F3D Subcommittee Chairman

The complete F3D rule revisions appear to be implemented in a very positive nature. Very few questions or complaints have been expressed.

The 2008 F3D season produced several races with positive turnout. The unofficial event of Q500 was added at many venues to enhance the interest of the neophyte.

The upcoming 2009 World Championship will be held in Ballenstedt, Germany on July 20th thru July 26th. Positive organization is being generated by the German Aero Club DAeC.
