

## 2018 Interim Bureau Decisions

DATE	IBD No.	SUBJECT	DECISION
01/05 /2108	2018/9	<p>The FAI Controller for the 3<sup>rd</sup> FAI World Cup of Indoor Skydiving noted that the Organiser Agreement prepared by the FAI for the FCE appeared to contain many errors when compared with the bid document in her possession. Upon investigation it became apparent that the bid presented to the 2017 IPC Plenary Meeting in Faro was that submitted in the Agenda and the only modification recorded in the meeting Minutes related to a change in the dates. The proposed changes to reduce the entry fee and offer additional services were not recorded as having been presented to and accepted by the Plenary.</p> <p>While it is obvious that the IPC is grateful to the Organiser for these changes, the Bureau feel it is important to record that they have been officially accepted.</p>	<p>Consequently, to ensure due process, the bureau has approved the revised bid which will be published on the IPC web site and the content of which will be applied to the Official Bulletin.</p> <p>The Bureau requests that the FAI modify the Organiser Agreement accordingly. A copy of the revised bid has been provided to the FAI.</p>
